## Porfidio Single-Agave Super-Jalisco

- **Company Name:** Destileria Porfidio SA
- **Company Location:** Puerto Vallarta, Mexico
- **Description of product:** In January 2010 Destileria Porfidio launches its new line of first-growth Super-Jalisco Single-Agave Spirits. Going beyond regular premium tequila, first growth Super-Jalisco is made exclusively from 100 percent blue agave plants grown in the limited region of Jalisco. Rather than cook the agave before pressing the juice as is customary for premium tequila, Super-Jalisco is made only from fresh agave juice. Low temperature fermentation and alembic distillation furthermore provide for a unique sensory experience
